SUMMARY

I am a graduate in Computer Engineering with a GPA of 3.58/4.0 from Nusantara PGRI University in Kediri. I have a strong interest in Web Programming, particularly in the field of Frontend Engineering. Currently, I am actively seeking early career opportunities to kickstart my professional journey. My goal is to be an effective contributor in a dynamic team within a work environment. I possess a strong passion for continuously learning new things, especially in the realm of web programming languages.
